Operative G T Purdy.

Oct. 25th, 1926.

Re: Conductors and motormen who worked on cars which went out Eastern Ave. the night of Sept. 14, 1922/

Operative interviewed George Wieman of 1024 Georges Road, who stated that on the night of Sept. 14, 1922 he was not working on cars which ran out Eastern Ave. He says he never saw Jim Mills or Harry Mills, nor Mrs. Mills. Mr. Wieman states that he believes that at that time he was a dispatcher on the Raridan Line and is quite sure he did not work on Eastern Ave. the night in question. (At present Mr. Wieman is working for the Atlantic and Pacific).

Operative located the home of Joseph Synnott, at 222 Handy Street. Mr. Synnott was at work in the evening when operative called and will try to see him before 12 noon tomorrow. He is still on the cars.

Operative located George Bailey on Georges Road near Mr. Wieman's home. He is still employed with the Public Service Company and was working when operative called. Will call on him again.

Went to 147 Remsen Street in an effort to locate John Witkowski. Found a William Witkowski at that address and he stated that he is not a relative to John Witkowski and does not know any person of that name. He never worked for the Public Service.

Respectfully submitted:

G.T.P.
